CH Unplugged - Stage Setup Overview

Solo acoustic guitar, vocals and live looping

1 Self-contained setup (usual setup)

Top-down view (not to scale)

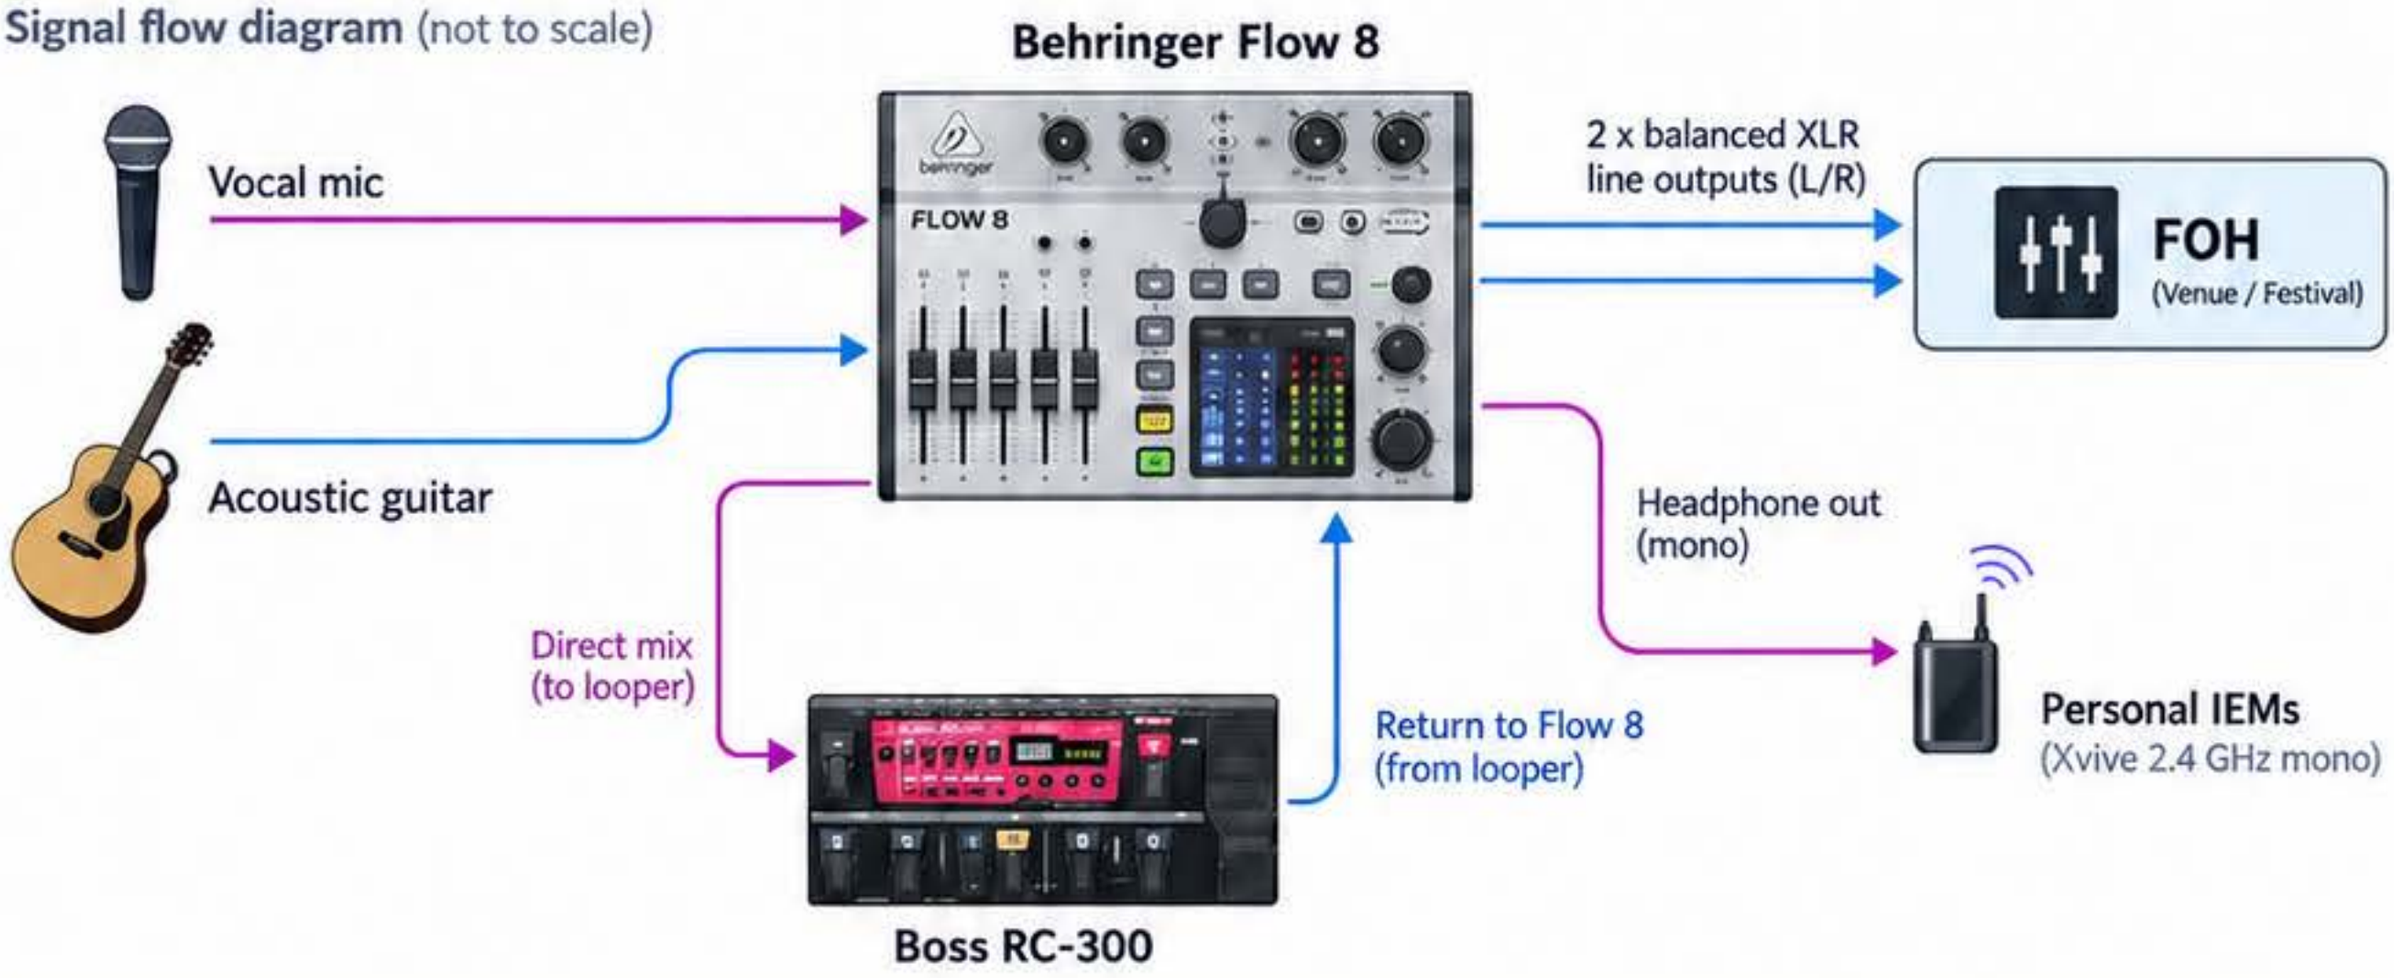

Final layout adapts to the room.

Minimum 1 x 230 V outlet nearby. Ideally one outlet each side of the performance area.
Artist supplies extension leads / power distribution.

2 Venue / festival FOH setup

Signal flow diagram (not to scale)

FOH receives a complete premixed stereo feed. No venue monitor mix normally required.

Usual setup is self-contained.

Lighting can also be supplied where required.

Where house FOH is provided, treat the L/R feed as the complete stereo mix.
